EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard E. Fichter on 4/27/06.

The application has been amended as follows: please cancel claim 6.

2. The following is an examiner's statement of reasons for allowance: claims 2-8, 20 are allowed because applied prior art, Engelhardt, doesn't describe or suggest to form an oxide layer covering the surface of the exposed second portion of the substrate and forming a second protection layer on the surface of the oxide layer. He describes forming the oxide after the conclusion of the etching/passivating (protective layer) process for the purpose of rounding peaks in the boundary regions between the partial trench regions (col. 4, line 34-40).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DuyVu n. Deo whose telephone number is 571-272-1462. The examiner can normally be reached on 6 am -2:30 pm.
